Stella Chair - Pumpkin

The humble tub chair dates back to the 18th century and was a sign of wealth. Since then it has evolved through Art deco styling to 50s glamour and again has found itself back in fashion with a more feminine influence. Luxury velvet adorns the Stella tub chair with sumptuous shell-like detailing in the back which gently curves to form the arms and a rounded generous deep seat. It stands proud on its glamorous gold metal legs giving a glimpse of its opulent and wealthy past.

5' Bed Grey

In recent years the bedroom has been elevated to a place of beauty rather than a mismatch of furniture to hide behind closed doors. Today's bedrooms are interior spaces to be respected and treated with love as they offer a much-needed haven to rest and relax. The focal point of any bedroom is the bed, and for this a statement bed is a must. Georgia is that bed. A bold, buttoned, large headboard, with graceful sweeping edges, offering the hint of a winged effect which looks elegant and sophisticated. Also available as an ottoman bed for extra storage underneath. Simply dress with fabulous bedding for a stunning centre piece never to be hidden away.

The Ivy range of occasional furniture has a lot to offer from contemporary styling to intricate traditional detailing blended together to form each stunning piece. Mango is the wood of choice stained to a rich walnut colour which enhances the handcrafted lattice design detailed on each piece. Gold metal framing and handles offset this rich wood offering a nod to the much-desired Opulent Luxe trend currently making its way into furniture manufacture after being absent for many years.
